## Chapter 1 by Ichigo

Once there lived two people. Their names were Isabella and Nick. Since they didn't know each other well before Isabella moved to QV, they didn't see their future. But then, Isabella moved to QV and she began her fascinating love life.

It all started on the first week of school, when Nick and his squad stalked her. Isabella saw them at some of her classes and she was creeped out. But at the time, she didn't know Nick's name, so she called him bushy head. It had really started in the summer, but back then, she hadn't known she was moving. The stalking squad stopped stalking her after that 1st week of school. But, one guy, Tommy, and Nick, continued looking out for her.

Her friend began sending messages back and forth between them and they soon began a love for each other.

Years went on and even with their grade differences, they always kept in touch. One day, when Isabella was attending her final year of college, Nick visited her.

"DO you want to get married?" He asked.

Isabella said yes because she loved him so much and because he was a rich happy guy.

They began their happy life. Nick bought them a nice mansion and Isabella loved it. But she thought it was weird that the room they shared had yellow wall paper and was as big as a gym.

She didn't mind it though, so she didn't worry about it.

One day she walked into the room. Nick was a twin. Isabella also wondered about this, but Nick had taken the time to give her the life she'd always wanted.

A second later, Nick walked into the room.
